Heart's Vortex: Intracardiac Blood Flow

ril. 9781607950332 Lst 103,99 pagg. 960;

McGraw Hill (01/02/2010)

Cardiologia / Cardiology

This outstanding resource provides a comprehensive guide to intracardiac blood flow phenomena and cardiac hemodynamics, including the developmental history, theoretical frameworks, computational fluid dynamics and practical applications for clinical cardiology, cardiac imaging and embryology. It is not a mere compilation of the most up-to-date scientific data and relevant concepts. Rather, it is an integrated educational means to developing pluridisciplinary background, knowledge and understanding. Such understanding allows an appreciation of the crucial, albeit heretofore generally unappreciated, importance of intracardiac blood flow phenomena in a host of multifaceted functional and morphogenetic cardiac adaptations

Wyszynski

Congenital Heart Defects - From Origin to Treatment

ril. 9780195373882 Lst 85 pagg. 560;

Oxford U.P. (28/01/2010)

Cardiologia / Cardiology

Congenital Heart Defects, or CHDs, are the most frequently occurring birth defect. In the US alone, over 25,000 babies are born each year with some form of CHD. In the last 20 years, medical advances and new surgical procedures have dramatically decreased the mortality rate of these abnormalities and led to a better understanding and treatment of CHDs in adults. This definitive work on the subject covers all aspects of CHD, under the editorship of a leading geneticist, cardiologist, and public health physician, and features contributions from 60 major authorities in the field. Coverage includes a broad range of topics on the development, epidemiology, genetics, diagnosis, management, prevention, and public health issues of CHDs. This book will be of interest to geneticists, epidemiologists, cardiologists, pediatricians, graduate students, researchers, and others interested in the treatment of individuals with CHDs

The Growing Spine - Management of Spinal Disorders in Young Children

ril. 9783540852063 Eur 187,15 pagg. 675; illustrazioni: 304;

Springer Verlag (26/02/2010)

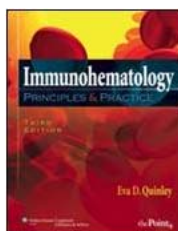

Chirurgia / Surgery - NEUROLOGIA / NEUROLOGY-ONCOLOGIA / ONCOLOGY-ENDOCRINOLOGIA / ENDOCRINOLOGY

Spinal disorders in very young children may be caused by a variety of conditions. The treatment of such conditions is often challenging due to the age of the patient and the progressive nature of the deformity. There also may be associated problems such as congenital anomalies, respiratory insufficiency, and neurological problems. Depending on the etiology of the deformity, these children are often cared for by multiple specialists including pediatricians, pediatric orthopaedists or orthopaedic spine surgeons, neurologists, pediatric surgeons, pediatric neurosurgeons, oncologists, and/or pulmonologists.

Gupta D.
Pediatric Surgery
ril. 9780071719872 Lst 204,99
McGraw Hill (01/04/2010)
Chirurgia / Surgery

Featuring contributions from 132 world-renowned experts, Pediatric Surgery covers the clinical, diagnostic, and management aspects of all major pediatric conditions requiring surgery. Readers will find coverage of all the latest topics such as nanotechnology, endoscopic and minimal invasive procedures, lasers, robotic surgery, molecular genetics, stem cell regeneration, and bariatric surgery. The book is enriched by 1200 illustrations and 2 DVDs with surgical video clips.

Quinley E.D.
Immuno-hematology: Principles and Practice, 3e
ril. 9780781782043 Lst 38,95 pagg. 432;
Lippincott Williams & Wilkins (01/02/2010)
Chirurgia / Surgery -CARDIOLOGIA / CARDIOLOGY

Praised by both instructors and students for its clear, concise, and thorough presentation, Immuno-hematology: Principles and Practice is an ideal text for anyone who wants to master the theory and practices of today's blood banking. The Third Edition has been completely revised and updated to reflect the latest scientific findings and clinical practices. Among the new materials are chapters dedicated to information technology and project management

Dermatologia / Dermatology

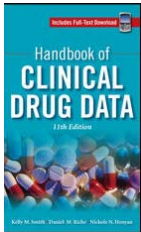

Alam M.
Body Rejuvenation
recent years, there has been a growing emphasis on minimally invasive procedures, which have revolutionized the safety and convenience of cosmetic surgery. Such procedures are often performed in combination with a series of minor procedures collectively providing results formerly possible only after major incisional surgery. As patients and physicians have become familiar with minimally invasive facial rejuvenation, there is growing interest in adapting techniques for use off the face. The same lasers, fillers, and other techniques that can improve the appearance of the forehead or lips are useful for the chest or hands. Of course, procedures have to be modified for use on the trunk and extremities. For instance, off the face, gentler treatment approaches can be preferable, in part because of reduced blood perfusion and slower wound healing.

Farmacologia / Pharmacology

Rowland M.
Clinical Pharmacokinetics and Pharmacodynamics: Concepts and Applications, 4e
ril. 9780781750097 Lst 43 pagg. 864;
Lippincott Williams & Wilkins (01/02/2010)
Farmacologia / Pharmacology

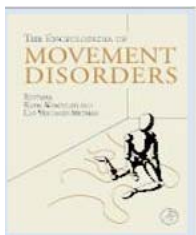

This handy reference is perfect for nurses entering or needing a refresher in critical care nursing. The book presents the latest information on more 100 critical care disorders in the award-winning Incredibly Easy! style, with light-hearted humour, memory joggers, recurring icons to emphasize key points, and numerous quick-scan tables, illustrations, and flow charts

Smith K.
Handbook of Clinical Drug Data 11/e
br. 9780071626880 Lst 36,99 pagg. 1148;
McGraw Hill (01/04/2010)
Farmacologia / Pharmacology

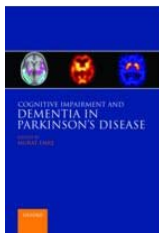

Uniquely designed to allow comparisons within drug categories, Handbook of Clinical Drug Data is the most comprehensive, well-referenced book available on the selection, use, and clinical aspects of virtually any drug. Compiled by expert clinicians, this quick-access guide delivers the data you need to prevent adverse drug reactions in your patients and help you select drugs for both general and special patient populations

Neurologia / Neurology

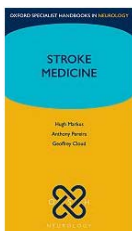

CRANE A. a cura di Kompoliti and Verhagen
Encyclopedia of Movement Disorders, Three-Volume Set
Introduction price:£535.00 - valid 20/05/10
ril. 9780123741011 Lst 665 pagg. 1593;
Academic Press (01/02/2010)
Neurologia / Neurology

The Encyclopedia of Movement Disorders is a comprehensive reference work on movement disorders, encompassing a wide variety of topics in neurology, neurosurgery, psychiatry and pharmacology. This compilation will feature more than 400 focused entries, including sections on different disease states, pathophysiology, epidemiology, genetics, clinical presentation, diagnostic tools, as well as discussions on relevant basic science topics. This Encyclopedia is an essential addition to any collection, written to be accessible for both the clinical and non-clinical reader

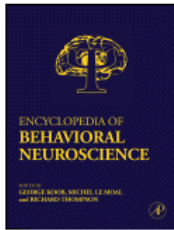

Emre M.
Cognitive Impairment and Dementia in Parkinson's Disease
ril. 9780199564118 Lst 55 pagg. 288;
Oxford U.P. (07/01/2010)
Neurologia / Neurology

Parkinson's disease has long been perceived as a pure motor disorder, partly due to its initial description by James Parkinson, who suggested that "senses and intellect remain intact", and partly due to the fact that patients with PD did not survive long, before effective treatment became available. As the survival time of patients with Parkinson's disease has substantially increased due to modern treatment, it has become apparent that cognitive deficits and dementia are also frequent features, especially in elderly patients. With the progression of the disease and age, dementia develops in a substantial number of patients and constitutes a major therapeutic challenge. Dementia has thus increasingly been the focus of research and practice in recent years and a large body of knowledge has been accumulated. Despite these developments there has been no single volume dedicated to this topic

Markus
Stroke Medicine
br. 9780199218776 Lst 42,95 pagg. 578;
Oxford U.P. (21/01/2010)
Neurologia / Neurology

Stroke is an enormous health problem. It is the third major cause of death, and the major cause of adult neurological disability. As many as a quarter of women in their 80s may suffer stroke. It represents a huge financial burden for the NHS, costing more than heart disease. Stroke care has historically been poor in many places but a revolution in care is taking place as a result of specific treatments such as stroke units and thrombolysis, which have been shown to markedly improve outcome. This has led to many countries reorganising the way they offer stroke care

Thompson R. A

Encyclopedia of Behavioral Neuroscience 3 vols set
INTRODUCTION PRICE Lst 535 valid 31/05/10

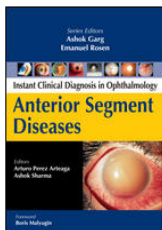

ril. 9780080447322 Lst 665 pagg. 1600;

Academic Press (01/04/2010)

Neurologia / Neurology -PSICOLOGIA / PSYCHOLOGY

Encyclopedia of Behavioral Neuroscience is the first and only multi-volume reference to comprehensively cover the foundation knowledge in the field. This three volume work is edited by world renowned behavioral neuroscientists George F. Koob, The Scripps Research Institute, Michel Le Moal, Universit Bordeaux, and Richard F. Thompson, University of Southern California and written by a premier selection of the leading scientists in their respective fields. Each section is edited by a specialist in the relevant area. The important research in all areas of Behavioral Neuroscience is covered in a total of 210 chapters on topics ranging from neuroethology and learning and memory, to behavioral disorders and psychiatric diseases

Oftalmologia / Ophthalmology

Anterior Segment Diseases

br. 9780071667265 Lst 48,99 pagg. 448;

McGraw Hill (10/03/2010)

Oftalmologia / Ophthalmology

This well-illustrated full-color reference provides the latest guidelines for diagnosing and treating corneal diseases

Cavallini G.M.

Lens Disease

br. 9780071667210 Lst 48,99 pagg. 384;

McGraw Hill (01/04/2010)

Oftalmologia / Ophthalmology

This title includes the latest guidelines for diagnosing and treating human lens diseases. This full-color resource details the surgical and clinical aspects of human lens diseases to assure their successful diagnoses and treatment. It features full-color presentation with numerous photographs and illustrations. The world's foremost authorities cover patho-physiology, clinical signs, symptoms, investigations, differential diagnosis, treatment, and prognosis in a simplified manner. It includes thorough and definitive coverage of the human lens and lenticular surgery

Oncologia / Oncology

Brent G.

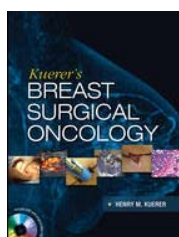

Thyroid Function Testing

ril. 9781441914842 Eur 145,55 pagg. 392;

Springer Verlag (26/02/2010)

Oncologia / Oncology -ENDOCRINOLOGIA / ENDOCRINOLOGY

Thyroid function tests are performed by essentially all medical practitioners across every clinical setting. Significant insights have been gained into thyroid regulation and thyroid hormone metabolism that influence the selection and interpretation of thyroid function tests. Recent studies are summarized showing that genetic variations in key thyroid regulating genes may influence thyroid function tests. The basics of thyroid function measurements, approaches, limitations and clinical applications will be described for the major categories of thyroid function tests. Application of thyroid function testing to key clinical settings are discussed, including management of thyroid diseases. An approach to thyroid function testing in special groups is described, including infants and children, the elderly, pregnant women, and the hospitalized patient.

Kuerer H.

Kuerer's Breast Surgical Oncology

ril. 9780071601764

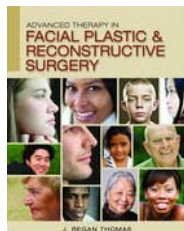

Lst 153,99 pagg. 1100;

McGraw Hill (01/04/2010)

Oncologia / Oncology -CHIRURGIA / SURGERY

Written by an internationally recognized multidisciplinary team of authors, Kuerer's Breast Surgical Oncology is the first text specifically dedicated to breast surgical oncology. Turn to any page, and you'll find cutting-edge, evidence-based information and insights?supplemented by a full-color presentation and a companion DVD?all designed to help provide a solid foundation for current and future best practices

Otorinolaringoiatria / Otorhinolaryngology

Thomas R.

Advanced Therapy in Facial Plastic and Reconstructive Surgery

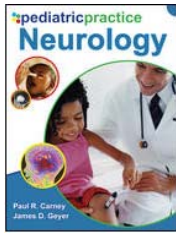

ril. 9781607950110 Lst 144,99 pagg. 665;

McGraw Hill (01/04/2010)

Otorinolaringoiatria / Otorhinolaryngology -CHIRURGIA / SURGERY

A comprehensive coverage of facial and reconstructive surgery written by nationally known plastic surgeons from around the US who explain the most current updated clinical techniques and reflect their own clinical experience and preferences. Includes extraordinary clinical and surgical photos and case studies from these authors' practices. Coverage includes the full spectrum of cosmetic-aesthetic procedures and reconstructive procedures including congenital abnormalities, facial trauma, cancer and special chapters on Scar Revision and Camouflage surgery, grafts and implants, laser surgery and wound healing. This text will be of great value to both experienced surgeons and resident level physicians

Pediatria / Pediatric

Carney P.

Pediatric Practice: Neurology

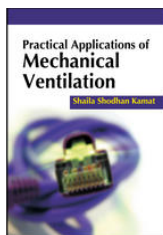

ril. 9780071489256 Lst 60,99 pagg. 456;

McGraw Hill (01/02/2010)

Pediatria / Pediatric -NEUROLOGIA / NEUROLOGY

The book includes detailed, yet concise overviews of pediatric neurologic conditions, including seizures and epilepsy, paroxysmal disorders, headache, ataxia, ADHD and learning disorders, cerebral palsy, movement and balance disorders, neuropathies, neuroinfectious diseases, and much more. Additionally, proven diagnostic and management strategies are provided for immediate use in a clinical setting. Pediatric Practice: Neurology is your blueprint for improved medical management--and optimal outcomes--for your pediatric patients.

Pneumologia / Pneumology

Kamat

Practical Applications of Mechanical Ventilation

br. 9780071718103 Lst 54,99 pagg. 592;

McGraw Hill (01/04/2010)

Pneumologia / Pneumology

Practical Applications of Mechanical Ventilation is a concise basic textbook on mechanical ventilators valuable to students as well as practitioners. It provides a thorough overview of the physiologic basis of ventilation and details various ventilatory strategies for different disease states requiring intensive care

Schwarz M.

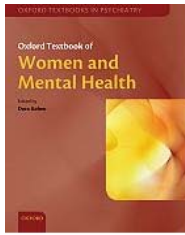

Interstitial Lung Disease 5/e

ril. 9781607950240 Lst 107,99 pagg. 760;

McGraw Hill (01/04/2010)

Pneumologia / Pneumology

Interstitial Lung Disease, Fourth Edition is a complete publication of interstitial lung diseases and includes clinical, pathologic, radiologic and physiologic evaluation of the patient with ILD. It provides a basic pathobiology and a complete description of individual disease entities. The book covers a wide array of disorders, sarcoidosis, asbestosis, hypersensitivity pneumonitis, drug induced lung disease, connective tissue disease and pulmonary vasculitis, to name but a few. This new edition also features an examination of future potential therapies for interstitial lung disease.

Psichiatria / Psychiatry

Kohen D.

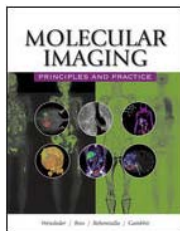

Oxford Textbook of Women and Mental Health

ril. 9780199214365 Lst 75 pagg. 352;

Oxford U.P. (01/03/2010)

Psichiatria / Psychiatry

Gender and mental health is a growing field in psychiatry and in the last three to four decades, many different aspects of women's mental health have bloomed. Researchers have gained a better understanding of the psychological, social, and cultural aspects of mental health problems in women, and it is possible to describe, classify, and circumscribe different diagnoses as they appear in the female gender. Epidemiological data has also shown an increased frequency in different clinical aspects of many psychiatric disorders

Radiologia / Radiology

Weissleder R.

Molecular Imaging: Principles and Practice

ril. 9781607950059 Lst 126,99 pagg. 525;

McGraw Hill (01/04/2009)

Radiologia / Radiology

The field of molecular imaging of living subjects have evolved considerably and have seen spectacular advances in chemistry, engineering and biomedical applications. This textbook was designed to fill the need for an authoritative source for this multi-disciplinary field. We have been fortunate to recruit over 80 leading authors contributing 75 individual chapters
