*Diritto Comparato / Comparative Law*

Regulation of the Voluntary Sector focuses on the legal and political environment for civil society in an era in which counter-terrorism policy and law have challenged civil society and civil liberties in a number of countries. The ways in which counter-terrorism law and policy affect civil society can and do differ dramatically by country and region. Through the lens of developments since September 11th, Mark Sidel provides the first comparative analysis of state responses to voluntary sector activity. Comparing the situations in the UK and the US, as well as in Australia, Canada, India and within the European Union, he surveys the increasing efforts to delimit and restrict voluntary sector activities – such as fundraising and grant-making – as well as opposition to them

*Diritto Comparato / Comparative Law*

International Human Rights, now more than ever, is at the forefront of global politics and encompasses a broad and diverse range of subjects, issues and geographical jurisdictions. This book takes a thematic approach to the subject by collecting material around concepts and frameworks rather than specific rights making it the ideal companion for most courses in International Human Rights. Cases and material are clearly separated from the main body of the text so that extracted material is immediately recognizable. The surrounding text contextualizes each extract and explains the relevant issues, while questions throughout the book encourage students to analyse and debate the material they are reading. This book is ideal for students seeking to truly engage with and understand the key issues concerning the study of international human rights

**Fluggastrechte im internationalen Luftverkehr**

br. 9783161500381 Eur 64 pagg. 375;

Mohr ( Paul Siebeck) (01/09/2009)

*Diritto Privato / Private Law*

Das gestiegene Verkehrsaufkommen im Luftverkehr führt heute immer häufiger zu Verspätungen von Fluggästen sowie zu Überbuchungen und Annullierungen von Flügen. Jens Peter Janköster untersucht, welche Ansprüche der Fluggast in diesen Situationen gegen den vertraglichen Luftfrachtführer hat. Dabei stellt sich vor allem die Frage nach der Abgrenzung der Anwendbarkeit von internationalem Einheitsrecht sowie europäischem und nationalem Recht. In diesem Zusammenhang untersucht der Autor insbesondere den häufig angenommenen Fixgeschäftszusammenhang des Luftbeförderungsvertrages und die Bedeutung der Flugnummer für die Beförderungsverpflichtung des vertraglichen Luftfrachtführers. Insgesamt wird eine tragfähige dogmatische Struktur erarbeitet, die es allen voran der Rechtsprechung ermöglichen soll, nicht nur im Einzelfall sowohl für den Luftfrachtführer als auch für den Fluggast 'gerechte' Lösungen zu finden

Collection "Thémis"

br. 9782130574903 Eur 35 pagg. 700;

PUF (04/11/2009)

*Diritto Privato / Private Law*

Un manuel complet sur ce vaste sujet qu'est le droit de la santé dont les règles s'inscrivent entre droit public et droit privé. Droit mixte donc, ce droit emprunte aux disciplines fondamentales du droit certains des principes qui le structurent, mais il est aussi riche de règles spécifiques, parfois dérogatoires, obéissant à une logique propre aux questions sanitaires. Le droit à la santé est aussi un droit particulier parce qu'il se rapporte à l'individu en tant que personne et à l'organisation sociale générale

*Diritto Processuale Civile*

Oggleich eine Begriffsbestimmung des "Amtsträgers" in § 11 Absatz 1 Nr. 2 StGB getroffen wurde und der Begriff damit legaldefiniert ist, waren und sind Bedeutung und Reichweite dieser Definition auf das heftigste umstritten. Die Unsicherheit in Bezug auf die Bedeutung des strafrechtlichen Amtsträgerbegriffs ist in Ansehung der Vielzahl der Straftatbestände, die auf diesen Begriff zurückgreifen, ein besorgniserregender Zustand, entscheidet doch die Amtsträgereigenschaft in strafrechtlicher Hinsicht nicht selten über "alles oder nichts". Claus Nils Leimbrock möchte dieser Rechtsunsicherheit begegnen und mit seiner Untersuchung zur Konkretisierung des allgemein als unklar empfundenen Begriffs des Amtsträgers beitragen. Besonderes Augenmerk legt er dabei auf das weite Feld staatlicher Privatisierungsmaßnahmen

*Diritto Pubblico / Public Law*

Le but de ce manuel n'est pas de constituer un traité du droit de l'administration locale décentralisée, mais d'analyser les structures essentielles de ce droit en évolution permanente, de fixer les idées sur ce qu'impliquent la décentralisation et une émancipation juridique des collectivités territoriales qui s'inscrit dans une dimension historique au long cours marquée, dans un premier temps, par la construction d'un État centralisé, puis, depuis la fin de l'Empire, par la longue marche vers la décentralisation. Les dernières modifications juridiques ont été intégrées

br. 9789050959568 Eur 79 pagg. 444;

*Diritto Umano / Human Rights*

The present volume deals with terrorism, both the legislative reactions to it and its impact on human rights. It is argued that the preservation of human rights is vital for the prevention of terrorism, encompassing state and non-state terrorism alike. Further, the study shows that legislators tend to disregard fundamental human rights when confronted with terrorism. They are "terrorised" themselves by the incident and risk to overreact. After an historical account of selected (pseudo-)terrorist movements throughout time and space, an inventory of anti-terror legislation in four European countries within the last forty years follows. In this context, the author examines the role of the judiciary with a special focus on the European Court of Human Rights in Strasbourg. As a result, we get a complex view on what happened with regard to terrorism and anti-terrorism in different European countries in the past and is happening at present, and what this means for human rights. This allows us to put contemporary anti-terror legislation into perspective. How have different governments dealt with terrorism in the past? How has the law developed after September 11th 2001? Which lessons can be learned, and what can we expect in the future?

*Diritto Umano / Human Rights*

This new Yearbook reviews the significant developments at European level regarding disability law and policy. The field of disability law and policy is both new and rapidly expanding at European level. It covers a disparate range of subject areas including non-discrimination, transport, education, employment and housing. For the first time, the Yearbook draws all of the relevant developments together and provides an indispensable reference work for lawyers, public policy analysts, researchers, government agencies and civil society groups

The long ascendancy of pluralism and 'collective laissez-faire' as a guiding ideology of British labour law was emphatically shattered by the New Right ideology of Thatcher and Major. When New Labour was finally returned to power in 1997, it did not, however, attempt to resurrect the pre-Thatcher preference for pluralist non-intervention in collective industrial relations. Instead, it purported to follow a 'Third Way'. A centrepiece of this new approach was the statutory recognition provision, introduced in Schedule A1 TULRCA 1992.

*Politica Internazionale/ International Politics*

Italy Today represents one of the most comprehensive examinations of contemporary Italy. It is a provocative and an innovative collection that aims to highlight the current 'crisis' of the country through an analysis of several different 'dark shadows' of contemporary Italian society. Italy already had a long history of 'unsolved' issues, several chronic problems and contradictions that have been ignored for a very long time, during which they have assumed dramatic proportions and gravity. The peninsula has now become the 'Sick Man of Europe', a country facing a veritable decline also caused by apparent incapacity and difficulties of the ruling economic, political and social elites

*Antropologia / Anthropology*

Science and technology studies, cultural anthropology and cultural studies deal with the complex relations between material, symbolic, technical and political practices. In a Deleuzian approach these relations are seen as produced in heterogeneous assemblages, moving across distinctions such as the human and non-human or the material and ideal. This volume outlines a Deleuzian approach to analyzing science, culture and politics

*Antropologia / Anthropology*

In its assessment of the current "state of play" of ethnographic practice in social anthropology this volume explores the challenges to contemporary ethnographic methods of changing social forms and changing understandings of "the field," including the implications of the remarkable impact social anthropology is having on neighboring disciplines such as history, sociology, cultural studies, human geography, and linguistics, and the potential "costs" of this success for the discipline. Contributors also discuss how ethnographic method is influenced by current institutional contexts and historical "traditions" of ethnographic work across a range of different settings. Ethnography is featured here less a methodological "tool-box" or technique but rather as an invitation to the reader to reflect on its subject

*Antropologia / Anthropology*

Professions are central to any political sociology of major associations, organizations and venues in civil society underpinning democracy; they are not a subset of livelihoods in a mundane sociology of work and occupations. Professions in Civil Society and the State is at once elegant and startling in its directness and the sheer scope of its implications for future comparative research and theory. Not since Talcott Parsons during the early 1970s has any sociologist (or political scientist) pursued this line of inquiry. Sciulli's theoretical approach differs fundamentally from Parsons' and rests on a breadth of historical and cross-national support that always eluded him. The sociology of professions has come full circle, leaving behind Parsons, his critics, and two generations of received wisdom
