Diritto Amministrativo / Administrative Law

Cet ouvrage de droit administratif général présente à la fois l'exposé du cours réduit à l'essentiel, et des exercices pratiques, permettant d'acquérir une méthode rigoureuse de présentation des connaissances. Les "encadrés", où ont été sélectionnés des extraits de jurisprudence, doctrine, réglementation, sont destinés à fixer l'attention et à rendre plus vivantes les données abstraites exposées auparavant. Les thèmes de réflexion et les commentaires d'arrêts sont accompagnés de corrigés, modèles - parmi d'autres - de plans structurés propres à faciliter la rectitude du raisonnement et la force de la démonstration, qualités essentielles du juriste. Les textes et la jurisprudence sont régulièrement actualisés

ril. 9789041127877 Eur 140 pagg. 336;

Kluwer Law International (08/10/2009)

Diritto Commerciale / Commercial Law

In the wake of the credit crunch, structured finance is linked to bailed-out investment banks and overpaid executives rather than the innovative financial solutions it continues to provide. The initial response from the financial markets was a move back to basics, to plain vanilla transactions. Furthermore, many structured finance instruments, such as securitization, derivatives and other structured products, are facing intense regulatory and political scrutiny. These pressures notwithstanding, the potential of structured finance will play an important part in facilitating the road to recovery. This book explains why

ril. 9781841136738 Lst 95 pagg. 440;

Hart Publishing (01/12/2009)

Diritto Commerciale / Commercial Law

Letters of credit have retained their role as an instrumentality for the financing of foreign trade. An understanding of the law and practice in point is imperative for lawyers advising business people and bank clients, as well as for the banking and trading communities. The book examines the topic on the basis of the common law system, primarily UK law, and adopts an approach that is analytical and not merely descriptive. Letter of credit transactions are, by their nature, international and most nations have adopted the Uniform Customs and Practices (UCP) originally promulgated by the International Chamber of Commerce (ICC) in 1933 and updated from time to time

Diritto Della Concorrenza / Competition Law

Over the last ten years, antitrust rules governing vertical agreements have undergone thorough reform. In the EC, the old sector-specific block exemptions were replaced by Regulation 2790/99, applicable to all sectors of the economy. In addition, changes introduced to the procedural rules have led to the decentralisation of Article 81(3) and the removal of the notification requirement. In like manner, in the US the Supreme Court has gradually taken vertical restraints out of the per se illegality rule.

Diritto Europeo / European Law

The European Commission's review of its approach to abuse of dominance under Article 82 of the EC Treaty has been stimulating debate for several years. In July 2005 the Commission published its consultation paper 'An economic approach to Article 82' in which the Economic Advisory Group for Competition Policy questioned the merits of the traditional formalistic approach to Article 82 EC cases. This paper advocated an effects-based approach focused on competitive harm.

Diritto Europeo / European Law

The process of fragmentation of the international legal order and the absence of constitutional devices governing the connections between the various legal regimes can be reduced to a rational picture only through the activity of the judges. Against this background, the judges play a crucial role in creating connections between legal regimes and proceedings. The metaphor of dialogue has been vastly used by the literature and this concept was variously understood in different meanings: vehicle for transplants, informal way of communication between judicial and political bodies, new paradigm of judicial relations between actors not belonging to the same legal order

Diritto Europeo / European Law

This book offers an original interpretation of the case law on exclusionary abuses under Article 82 EC and identifies the various factors that have shaped the application of the provision since its inception. It provides in-depth analysis of the European Commission's Guidance on enforcement priorities under Article 82 and makes a provocative proposal for further modernisation of the application of Article 82 to exclusionary abuses by reconsidering the scope of Article 82 and recasting it as a provision which deals only with unilateral conduct

Diritto Europeo / European Law

The historic attempt to adopt a Constitution for Europe and its eventual rejection by the electorates of France and the Netherlands led to a renewed and impassioned debate about the future of the EU. Now, with the adoption of the Reform Treaty, the debate about the constitutional architecture of Europe is once again in the full public gaze. More than at any time in the past, Europe is engaged in a process of constitutionalisation which will shape its powers and activities for a generation.

The set consists of the texts of the major pieces of legislation that governed the rural land regime in Palestine between the years 1918 and 1948, as well as the key reports and memoranda produced by British officials during that period. These reports show governmental attempts to understand and control the rights that governed access and management, in some cases details of which exist only in government archives, and a number of which are less well known than they ought to be. Political questions concerned with the dynamics of Jewish land acquisition are also clearly highlighted in relevant laws and memos but overall, the collection provides a broader perspective on land rights, and pays particular attention to continuities with the Ottoman past and some comparison with other colonial contexts

Diritto Privato / Private Law

Au cours des quatre années qui se sont écoulées depuis la 8e édition de cet ouvrage, le droit du travail, et singulièrement celui des comités d'entreprise, ont connu des modifications confinant au bouleversement : nouveau Code du travail avec une numérotation à six chiffres, lois diverses modifiant aussitôt ce nouveau code, etc. A cela s'ajoute une nouvelle jurisprudence qui doit jongler entre les deux codes en s'efforçant de faire respecter la règle du droit constant. Cette 9e édition analyse clairement toutes ces modifications de manière à aider les représentants du personnel à sauvegarder les prérogatives des comités d'entreprise, souvent malmenées mais particulièrement précieuses dans la crise économique actuelle. Les références à la jurisprudence ont été enrichies et accompagnées de moyens d'accès à certaines décisions inédites

Diritto Privato / Private Law

Today there are more than 2,500 bilateral investment treaties (BITs) around the world. Most of these investment protection treaties offer foreign investors a direct cause of action to claim damages against host-states before international arbitral tribunals. This procedure, together with the requirement of compensation in indirect expropriations and the fair and equitable treatment standard, have transformed the way we think about state liability in international law

Diritto Privato / Private Law

This collection contributes to a fundamental debate about the nature of private law. The essays consider whether private law should be seen as having goals and, if so, whether those goals are particular to private as opposed to public law. They consider the legitimacy of the pursuit of community welfare goals in private law and the place of instrumentalist thinking in private law scholarship.

Diritto Pubblico / Public Law

The academic literature within law and elsewhere is replete with works addressing various aspects of globalisation, and within this literature various theoretical perspectives have been presented. Nevertheless, there is a widely recognised lack of theoretical underpinning for the development of law and globalisation. Part of the explanation for this state of affairs is that academic lawyers have tended to borrow from other disciplines rather than work through the consequences for a distinctively legal approach.

Scienze Giuridiche / Law

La entrada en vigor de la Ley 35/2003, de 4 de noviembre, de Instituciones de Inversión Colectiva, y de su reglamento, supuso una profunda reforma del régimen jurídico de la inversión colectiva, así como la trasposición al ordenamiento jurídico español de las Directivas 2001/107/CE y 2001/108/CEE, que modifican la Directiva 85/611/CEE del Consejo, por las que se coordinan las disposiciones legales, reglamentarias y administrativas sobre determinados organismos de inversión colectiva en valores mobiliarios. Los desarrollos normativos que se han producido desde entonces, hacían imprescindible la publicación de una obra que tratase de sistematizar la dispersa normativa existente, ofreciendo a los profesionales en este ámbito una obra que la analizase de manera global. En este sentido, esta obra constituye un análisis exhaustivo y sistemático de la normativa reguladora de las instituciones de inversión colectiva, en la que se agrupan las materias esenciales que regulan la inversión colectiva en España, permitiendo así un análisis en profundidad del régimen jurídico que conforman.

Since the beginning of the twenty-first century, political, economic and security-related changes have exerted tremendous pressure on the countries of the Gulf states. The countries have attempted to respond to such challenges by retaining their values, policies and institutions whilst preferring an incremental approach to change. This book seeks to tackle the many controversial and contradictory issues that have emerged within Gulf countries between traditional and modernist approaches to political, economic, social, cultural and educational change. It also examines the substantial gap that remains between the reality and aspirations of the Gulf in relation to: consolidated political development; the adoption of popular participation and elements of democracy; improved developmental models, economic structures and education systems; reinforced social structures; enhanced cultural dynamism; and the empowerment of women in public life.

How does the process of globalisation relate to the increase of migratory flows from less developed countries to western ones? This book explores the impact of globalisation upon migration from an international political economy perspective, paying particular attention to the dynamics of migration from the Middle East and North Africa area, especially Egypt, to the EU member countries. The theoretical aims of the book are to understand the problem of migration, both legal and illegal, in the context of globalisation, and to assess the relation between globalisation, marginalisation and the EU response to threats of mass immigration from less developed countries
